

EasyClean¹⁰ Glass Treatment Makes Cleaning Glass so Simple

What is EasyClean10?

Features & Benefits

Ease of Maintenance

*Agalite can apply
EasyClean10 to
all types of
shower glass.*

EasyClean10 is an ultra-thin transparent coating that completely adheres to the glass surface and provides protection that will repel both water and oil based stains. It is perfect for glass shower doors, glass railings & fencing, mirrors, exterior windows and glass backsplashes.

Similar to a non-stick fry pan, cleaning is made easier using only water and a mild detergent or with a microfiber cloth. No longer is scrubbing with harsh toxic cleaners needed. The superior protection of EasyClean10 also helps reduce the build-up of mold and harmful bacteria, promoting a germ free environment.

Untreated glass, tiles and grout surfaces are porous and as a result absorb mineral deposits and soap scums, over time making it very difficult to clean.

There are many benefits to using EasyClean10 Glass Treatment on your shower door investment. Here are just a few we would like to point out:

- **Makes Cleaning a Breeze** - All you need is a microfiber cloth.
- **Reduces Cleaning Time** - Significantly!
- **Superior Protection** - Resists staining and etching from soap scum, hard water and lime scaling.
- **Improved Hygienic Environment** - Reduces the buildup of mold, mildew and bacteria.
- **“One Time” Application** - Permanently bonds to the glass.
- **Revitalizing Products Not Required**
- **UV Stable**
- **Environmentally Friendly** - Eliminates the need for harsh cleaning chemicals.

To properly care for EasyClean10 Glass Treatment, rinse regularly with water and squeegee dry after each use. To deep clean the glass, wash the glass regularly using a damp microfiber cloth and a mild detergent before drying with a good quality squeegee.

Check the “*Care and Cleaning*” section on the EasyClean10.com website for the latest cleaning instructions and a list of acceptable glass cleaners.
